### **IMPORTANT**

Always take your treatment as directed by your doctor or nurse

Please remember to bring your medications, spacer and asthma plan when you visit your doctor or nurse.

Additional Information or Advice

## South Yorkshire

# My MART Asthma Action Plan

MART = Maintenance and Reliever Therapy

Name

Asthma/practice nurse name

Consultant /Doctor name

Date issued

Date of next review

How to contact your asthma team

#### **Useful Websites**

Asthma and Lung UK asthmaandlung.org.uk

Pollution Forecast uk-air.defra.gov.uk/ forecasting/

#### **GREEN Zone**

Am sleeping well

Am not missing school / college because of my asthma

If I need extra puffs of MART 3 or more times a week, or asthma is interfering with normal activities or sleep, my asthma is not well controlled. I should ask my asthma nurse or GP for an asthma review.

Must continue taking my normal treatment every day AND:

- I can take 1 puff of my MART inhaler as needed
- I can take up to a maximum of 8 puffs throughout the day (including my regular morning and night puffs)
- I must seek urgent medical advice if I ever need to to take 8 or more puffs in a day even if I am feeling better

If my MART inhaler is still not helping, it is not lasting 4 hours or I am getting worse I am having an asthma attack:

MOVE TO THE RED ZONE

#### **AMBER Zone**

Cough especially at night

## **RED Zone**

I am unable to speak in full sentences

I feel tight in my chest and wheezy

## Seek emergency help

- Sit upright and keep calm
- Loosen tight clothing
- Take 1 puff of your MART inhaler
- Wait a few minutes, if there is no improvement in symptoms take another puff
- Repeat this up to a maximum of 6 puffs

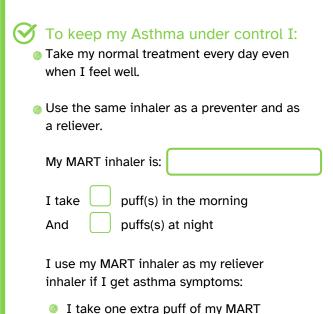

#### OR

If I (or my school) have a Blue Emergency Salbutamol inhaler:

- I can take 1 puff with a spacer every 30-60 seconds (up to 10 puffs) until help arrives
- If after 10 minutes help has not arrived. I can repeat the step above

# If help does not arrive call 999 again

Even if my symptoms improve I should see my doctor or asthma nurse immediately after an asthma attack

If I am regularly needing extra puffs of my MART inhaler or my asthma is getting worse: **MOVE TO THE AMBER ZONE** 

Other medicines I take for asthma are:

I should rarely need extra puffs of my

MART inhaler if my asthma control is

inhaler as needed

good.
